TECHNOLOGIES

Electronics Manufacturing For

MEDICAL & LIFE SCIENCE

Delivering high-reliability medical device manufacturing backed by global resources, regulatory expertise, and a commitment to helping customers bring innovative products to market with confidence.

TRUST
Uncompromising quality and dependability throughout the entire product lifecycle.

VISIBILITY
Real time, transparency, and communication from program launch to sustainment.

RELIABILITY
Proven systems and processes that ensure performance when it matters most.

PARTNERSHIP
A collaborative approach focused on your mission, your schedule and your success.

Life-Saving Medical & Life Science

PROGRAM EXPERTISE

With more than 30 years of experience in product, sub-assembly, and PCBA manufacturing, Creation Technologies supports a global footprint of 12 strategically located medical facilities across the U.S., Canada, Mexico, and Asia. Our ISO 13485 certified and FDA Registered operations are built for exceptional quality, speed, and regulatory compliance, ensuring your products consistently meet the highest standards.

- Imaging
- Surgical Robot
- Lab Diagnostic Equipment
- Cardiovascular
- Endoscope
- Lasers
- Therapeutic Devices
- Sterilization Equipment
- Patient Monitoring Systems
- Wearable & Disposable Devices

32% Medical Devices

$1B Annual Revenue

35+ Years of Profitable Growth

Trust, Visibility & Reliability Throughout the Entire Lifecycle

PRODUCT LIFECYCLE SOLUTIONS

Enhanced product performance, regulatory compliance, and market success across medical devices, diagnostics, and life sciences applications.

- PCBA & HLA Manufacturing
- Test Development & Design
- VAVE & Sustaining Engineering
- Rapid Prototyping & NPI
- Interconnect Solutions
- Quality & Regulatory Compliance
- Direct Order Fulfillment, Repair & Warranty

WHY PARTNER WITH CREATION TECHNOLOGIES FOR MEDICAL & LIFE SCIENCE DEVICE MANUFACTURING?

Proven FDA Class I, II & III Experience

Creation has a deep understanding of the regulatory requirements, documentation standards, and risk management processes necessary for success in highly regulated environments.

- FDA Class I, II & III expertise
- Regulatory compliance support
- Documentation & design controls
- Risk management processes
- Pre-Market approvals
- Device history records (DHR)

Responsive Solutions for Your Entire Product Lifecycle

With agile, end-to-end support, Creation's team quickly adapts to customer needs at every stage of the process - including NPI, Design, Testing Engineering.

- End-to-end product support
- Agile engineering teams
- NPI, design & testing expertise
- Rapid adaptation to changing needs

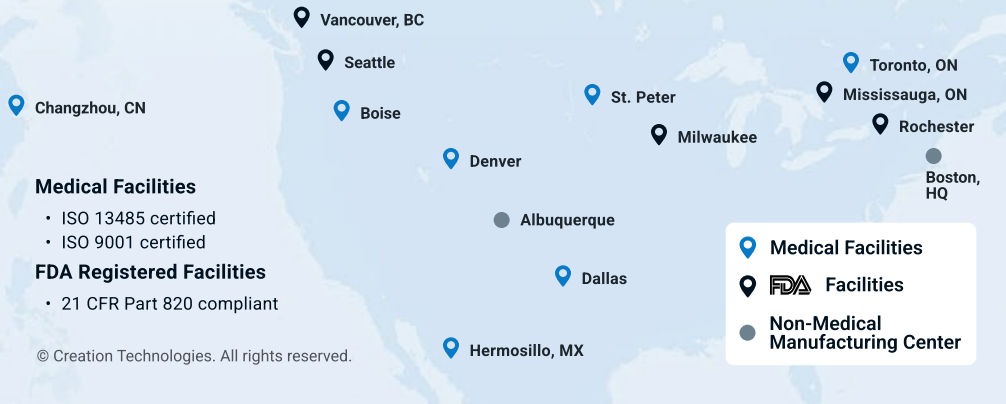
Unparalleled Quality with Accelerated Time to Market

By integrating cross-functional expertise and streamlined processes, we help accelerate time to market, reduce risk, and drive sustained product success.

- Faster time to market
- Cross-functional engineering expertise
- Reduced development risk
- Sustained product success
- Global supply chain solutions

LOCATIONS

Global reach. Local support.
Where you need us, when you need us.



Medical Facilities

- ISO 13485 certified
- ISO 9001 certified

FDA Registered Facilities

- 21 CFR Part 820 compliant
