

## **Creation Technologies Celebrates 10 Year Anniversary as of March 30, 2001**

We celebrated our 10th anniversary as a company on March 30th, with lots of food and sunshine. 10-year employees were honored, as well as a long list of 5-year employees. The party was organized in the parking lot of our new building, where product is already being built. The new building is clean, bright and filling up with people and equipment – it has positioned us for continued growth.

The changeover to the new ERP system was completed over the April 1st weekend, and a happy, tired and successful Implementation Team celebrated with a pancake breakfast in the North Building Lunch Room. Great job, folks!

Wednesday afternoon soccer has started again. The volleyball team has started their season, and the slo-pitch team is celebrating a successful start to their season (Go Solderballs!).

### **Mississauga:**

Mississauga's facility has just passed its 3rd year anniversary and with the ongoing addition of new staff and equipment, it is exciting to experience this continued growth. Great relationships have been developed between our vendors, customers and us, and those relationships have been blessed with the demands of new product implementation. Along with bustling launches of new products from new and existing customers and the change over to our new ERP system as shared with our Burnaby Business Units, our purchasing, engineering and production teams have been doing a great job meeting the challenges in demanding market conditions.

Have a look at our job postings in Careers to see if there's a posting that matches your skill set; this is an exciting and fun place to work and we'd love to have you join our team!
