Creation Technologies listed in Top 50 Technology Companies and Top 300 Private Companies in Canada

VANCOUVER, B.C. — The Globe and Mail recently published its List of Top Companies in Canada and we are delighted to announce that Creation Technologies has made it into two of their lists. We are currently ranked at #291 in the Top Private Companies in Canada based on revenues, and at #49 for the list of Top 50 Technology Companies in Canada. These lists can be viewed at the following link:
www.globeinvestor.com/series/top1000/2004.

Established in 1991, Creation has consistently outperformed industry averages and has remained profitable. This success is attributable to Creation's value proposition of flexibility, responsiveness, integrity, stability, entrepreneurial spirit and risk management. This combined with a very focused approach to customers requiring complex manufacturing solutions has led to our ongoing success.

We would also like to congratulate our customers who are also represented on this list of dynamic companies.

About Creation Technologies

Creation Technologies is a global top 100 electronics manufacturing service provider with the exact expertise required for medium-volume, complex manufacturing solutions. Creation's global top 100 position, combined with five North American facilities, allows for global competitiveness and Tier 1 capabilities, in addition to local responsiveness and world class customer service. Creation Technologies' strong fiscal management, employee ownership philosophy and commitment to investing in its capabilities results in an ideal choice as a highly stable partner for companies in the Industrial Controls, Instrumentation, Communications, Medical, Transportation and Safety and Security industries.
